

# Amirreza Mousavi

## Business Developer · Startup & Product Strategist

Tabriz, Iran | Remote-friendly | mba.mousavi@gmail.com | amirrezamousavi.ir

I work on the commercial side of early-stage products — finding the market, building the partnerships, setting the pricing, and turning a launch plan into something a small team can actually execute. My work spans startups, digital products, tourism, branding, international trade and business operations, including two projects I founded: Wentoevent and Lifestyle.

### EXPERIENCE

**Javi** — IELTS learning platform 2026 — Present

#### Business Developer

- Analysed target markets against migration trends and IELTS demand; produced market-entry recommendations for Iran, Pakistan, Turkey and selected international markets.
- Opened a new acquisition channel by identifying partnership routes with immigration agencies.
- Designed a revenue-sharing model with English teachers that lifts acquisition and product value simultaneously.
- Specified exam-solving and answer-sheet correction features, plus a QR-based acquisition route through printed materials.

**Pishbord Tejarat Rooz** — International trade & commercial services 2023 — Present

#### Business & Accounting Associate

- Three years inside a company working in international trade law and commercial services — joined as an intern and stayed on.
- Handle accounting work and support day-to-day business operations, working directly with international trade and commercial processes.
- Built practical understanding of how business structures and organisations actually run.

**Tourism Heritage Association** — Tabriz 2022

#### Business Development Advisor

- Identified structural weaknesses in a stalled organisation and designed four independent revenue paths where none existed.
- Built an organisational chart and an internal oversight system that removed inefficiency and restored accountability.

### PROJECTS FOUNDED

**Wentoevent** — Event discovery platform 2025 — Present

#### Founder & Project Manager

- Defined the business concept, product vision and core value proposition; built the product roadmap and strategic framework.
- Set customer acquisition, branding and growth strategy; opened conversations with marketing and strategic partners.

**Lifestyle** — Lifestyle technology ecosystem 2024 — Present

#### Founder & Product / Business Strategist

- Developed the original concept and long-term product vision for healthier digital experiences and real social interaction.
- Structured it as a multi-product ecosystem to spread development risk; developed Wentoevent as the first product within it.
